The "LAST TIME" Warranty

Investment in *optimal health* is by far your wisest long-term decision. At the Elegant smile dental we strive to *exceed* your

Q. How long will this crown (or porcelain veneer, or inlay) last?

A. So many factors influence the longevity of dental restorations that our best estimates are simply that Estimates.

However, it is our pleasure to offer you what we believe to be a **unique value...**

This will be the LAST TIME YOU PAY for a CROWN on that tooth! *

Optimal health is *only* maintainable when provider and patient alike commit to a joint partnership effort.

OUR PART

* If *our* crowns, porcelain veneers, or inlays *EVER* need replacement, and the tooth is still savable... as long as Dr. Nejat maintains his private practice in dentistry... *and* you do your part (below) we will **at no charge**:

Replace any crown with a new crown of the same type

Replace any porcelain veneer with a new veneer

Replace any onlay with a new inlay

Note: If a veneered or inlayed tooth is damaged or decayed to the extent that a crown is necessary, the full fee originally paid for the veneer or inlay will be applied toward the crown. You will pay only the difference. We cannot predict if and/or when gum or nerve treatments may be required. If needed, they would require additional fees.

YOUR PART

(Effective 01/01/2002)

Visit our office for a **minimum of 2** (4 if we've recommended due to gum condition) **times per calendar year for cleanings**. Note: Many of our patients still return to us after moving across the United States. If you move out of California, yet have done the rest of your part (below), one cleaning & check-up in our office annually will be sufficient to maintain this agreement!

Complete (in our office) **all recommended treatment** in the **quadrant** (quarter of the mouth the tooth in question is in), all within a one year period. Gum infection and bacterial decay spread from tooth to tooth. Your path to optimal health requires a comprehensive approach to care.

Advise us of the need to **change or cancel appointments at least 48 hours in advance**. Shorter notice cancellations or changes severely limit our ability to offer another patient *their* most preferred time.
